I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The compound prescription I get from Madison Pharmacy Assoc / Women's Health America is a big help in keeping my hormonal system balanced. It is very important for women like me to have as many reasonable medical choices as possible. When I first began taking hormone replacement therapy, my doctor specifically and strongly recommended the compound Rx. In taking and referred me immediately to Madison Pharmacy associates. Please don't take this excellent option away!
